**** Board Meetings: 2nd Wednesday of the month ****

Mission Statement

Strive to develop County solutions to sustain, conserve, and improve our natural resources by promoting sound management practices that protect the environment and are economically feasible and productive.

Top 3 Priorities

1. Erosion/Soil Quality
2. Water Quality/Quantity
3. Plant Condition

No-Till Soil Health Grant Project

This project will end October 2024, and is in its second year. So far almost 700 acres have been planted with our Truax range drill we purchased this spring with 319 grant funds. Nine different landowners participated this year planting a wide variety of crops. Our second drill, a Great Plains No-Till drill was purchased by the district as match on the grant, and was just delivered to be put to use next spring.

This project focuses on allowing landowners the opportunity to experiment on their properties through the planting of different species, cover crops and trying their hand at no-till planting.

Some of the species include Orchard Grass, Tall Meadow Fescue, Triticale, Beardless Barley/Beardless/Wheat/Oats, and several other combinations and varieties.

This project also focused on the installation of two stock water systems. Both were implemented in the fall of 2022 on Dairy Creek. This project saw the installation of a sump well on a spring development and the drilling of a well. These two systems remove livestock from the stream and provide water through seven different water troughs. In addition to the watering troughs, a water storage tank was also installed.

Oneida Soil and Water Conservation District FY 2022

Watercraft Inspection Station

Oneida SWCD has successfully completed 13 years in Malad at the I-15 Cherry Creek Rest Area managing a watercraft inspection station for the Idaho State Department of Agriculture. The station is open March 1st thru October 31st.

- Number of Inspections: 8,491
- Number of Hot Washes: 177
- Number of Fouled Boats: 16

FY 2022 Revenue

| | |
|--------------------|------------------|
| State Funding..... | \$36,603 |
| County..... | \$15,000 |
| City..... | \$1,500 |
| Snotel..... | \$1,650 |
| ISDA..... | \$167,178 |
| Total..... | \$221,931 |

NACD National Convention
NACD Poster/Speech Contest
Legislative Social & Display Days
1st-5th grade Conservation Days
Oneida County Fair Sponsor
Malad High FFA Greenhouse
MHS Senior Scholarships
Malad Elementary Kinder "Garden"

Cottonwood Creek 319 Project

The Cottonwood Creek 319 Project was granted an extension to complete unfinished projects. Some landowners were unable to obtain materials and services needed in the original plan because of the Covid-19 Pandemic. The extension focused on assisting three more landowners with leftover funds to implement off-stream watering systems, and to remove livestock from sensitive riparian areas. This project ended fall of 2022.

Daniels Livestock Project

This is a new project still in the beginning phases. This will include the installation of two off-stream watering projects and the fencing to keep cattle out of sensitive riparian areas.
